Miller Puts Up a Great Game Behind th Dat and Does Some Very Brilliant Throwing.

THE BOSTONS AND CHICAGOS WIT

Besults of the Ruces at Latonia and Gravesend-Ge ern! Sporting News of the Day,

Those small people from Cleveland are evidently determined to wind up the season ahead of our sluggers. The general argument is not altogether over vet but if the troublesome little customers keep up their gait of yesterday and of the day previous, that is, if they keep up their gait compared to the local talent they will succeed. The visitors are not by any means putting up a gilt-edged article of ball but compared with the commodity dealt out by our heroes it

have put up two terribly rocky games and it is not unreasonable to say that the work of the home players vesterday was a little

In vesterday's contest the home team lacked that ginger necessary to win games; they played in very many respects a listless guid I-don't-care sort of game. After the first incing they performed as if they were | The Phillies and the Giants Play Two satisfied that defeat was inevitable. There was one great exception, and that was Miller. As usual, George was playing all the time, and his work during the game will readily be forgotten by those who saw Four times the visitors tried to steal bases on him and four times he made the most brilliant throws ever seen. Three times he nabbed his man, and he would have downed the fourth, but Captain Bier-bauer dropped the bail. Miller's work was,

True, the ore shows that the home players carned two runs, while the visitors only earned one. But King sent a man to base on balls who ultimately scored. It is also fair to remark that Dame Fortune was dead against the home players. She so strongly displayed her partiality in the first inning that much of the cuthusiasm was knocked out of the home representatives.

In the second inning Virtue led off for the visitors and made a scratchy infield hit, which was safe. McAleer followed with a single to right, sending Virtue to third. Doyle followed with another single to cen-ter, scoring Virtue. In this inning Miller threw both McAleer and Doyle out while they were trying to steal second.

In the third inning the visitors netted three more runs. Viau got to first on Reilly's fumble, and Burkett get to first on balls, and then Childs popped up a little fly, which Reilly caught. McKean made a single to center, scoring Viau, he (Me-Kean) getting to second on the play. Davis knocked out a high and difficult fly to Hanlon. sprinting match took place at Portland, Ind., west of this city this afternoon bethere to witness it, as they looked for an there to witness it, as they looked for an exciting finish, it having been understood that there existed a bitter feeling between the participants. W. W. Keen was stakeholder, M. H. Walker referee, and Celeil Whipple and C. Rogers acted as judges. Deputy Marshall W. A. Reid, of Elwood, Ind., was Crider's backer and three weeks ago lost \$400 which he had staked up for him. This angered him very much and he informed Crider that if he lost any money on him again he would kill him. Reid was among the speciators to-day and bet over among the spectators to-day and bet over \$600 on Crider, who told him he would have \$500 on Crider, who told him he would have little trouble in winning the race.

After necessary preliminaries were arranged the race was started and when Curtis had reached one wire first, Reid became so worked up that he fired two shots out of a revolver at Crider, both taking effect. Reports received from there this evening are to the effect that he is in a critical condition. Reid was immediately arrested and hustled off to jail. His notion was the signal for a general outbreak between Curtis and Crider factions and some lively fighting resulted.

THE STATEMENT FROM AN ORGAN

SPECIAL TELEGRAM TO THE DISPATCH. NEW YORK, Sept. 22,-This afternoon' Mail and Express publishes the following as a dispatch from Washington: "Mr. J. G. Blaine will soon after the first of the new year notify his friends and admirers, who are now urging his nomination for the Presidency, that under no circumstances could he accept such an honor, and that he is for the renomination and re-election of Benjamin Harrison.
"This information is given the Mail and

Express man on the authority of a man whose name is national and whose position as a friend of Mr. Harrison and of Mr. Blaine is unquestioned. He is the man who has charge of the Northwest for the President and who has had the fullest confidence of both the interested parties. The situation as here given has been known to the President for some time and Mr. Blaine postpones his notification for good and sufficient reasons best known to himself. He expects to return to Washington in October, and his health has so much improved that he will get to work at once, as there is a number of important matters which require his per-

There have been rumors galore as to what Mr. Blaine intends to do in responce to the clamor for his accepting a nomination, but this is the first positive statement that in January he will announce in no uncertain terms that he cannot be a candidate.

Governor Campbell Introduces Him and Outhwaite Also Has Something to Say-

Dates Mapped Out for Camp. COLUMBUS, Sept. 22.-[Special.]-Governor Campbell, Hon. Roger Q. Mills and Congressman Outhwaite addressed a politithe principal address of the evening. The Governor was very happy in his remarks, and although he spoke but a few minutes, he was frequently interrupted by applause.

Mr. Mills prefaced his remarks by referring to McKinley as his personal friend, and to Governor Campbell as his personal and political friend. The tariff reformer held the people for nearly two hours. Throughout his remarks the closest attention was paid to his presentation of the Democratic side of the question, and his argument was received with demonstration of approval.

He pointed out the Republican position He pointed out the Republican position and sought to show the protective tariff did not benefit the workingmen of this country. In this country the extraordinary producing power of the workman, by aid of machinery, enables the manufacturer to produce his goods as cheap as those of other countries. McKinley's canvass, he said, represented high taxation, monopoly and restriction in trade, while Campbell's canvass represented the emancipation of the people. The first builds up an aristocracy and concentrates the wealth of the country in the hands of a few millionaires.

Governor Campbell will resume meetings as follows: Maryswille, September 25; London, September 26; Wellington, September 28, afternoon; Norwalk, September 28, evening; Painesville, September 28, afternoon. 28, afternoon; Norwalk, September 28, even-ing; Painesville, September 29, afternoon; Ashtabula, September 29, evening; Canfield, September 30, afternoon; Youngstown, Sep-tember 30, evening; Mingo Junction, October 1, afternoon; Steubenville, October 1, even-ing; St. Clairsville, October 2, afternoon; Coshocton, October 2, evening.

There Is Barely Enough Grain in Russia to Last the Year Out.

NO BREAD IN SIGHT AFTER THAT.

Farmers Obliged to Sacrifice Their Stock for Lack of Oats.

St. Petersburg, Sept. 22.—Reports received here from Tamboff and its adjacent provinces announce that the Zemstvos have provided for the resowing of the land and urnishing of supplies of grain until January. After that date there will be the greatest difficulty to ensure the necessary food for the people. As the collection of taxes is impossible, the salaries of the local administrative bodies have necessarily been suspended. Even if the funds to supply grain are ob-

tained the distribution, which will be over wide famine tracks, will be difficult, and the maintenance of hospitals, schools and asylums is doubtful.

The searcity of oats and hay is compelling the farmers to sell their live stock at mock prices. After a recent fair in one district the skeletons of 40 horses were found by the roadside. The animals had been killed for their skins.

Destitution is also staring in the face a large number of people who have been employed upon public works, as work upon the latter must stop when frosts set in. The masses of the people rely entirely upon the Government to help them. This being the state of affairs in the present mild weather, the gloomy prospects held out by the coming winter can be readily imagined. At an extraordinary meeting of the au-

thorities of the Government of Saratoff, just held, it was decided to petition the Imperial Government to prohibit the exportation of oats and millet, as well as that of rye. Compulsory Military Service Proposed. THE HAGUE, Sept. 22 .- The Minister of War,

The most important business was that in relation to the leasing of wharf privileges and market stands. In the former, the action of the sub-committee in granting privileges to certain persons and fixing the rental for the same was concurred in, with the exception of that to the Columbia Boat Club. Some of the members of the club are Councilmen, and they object to having the boathouse moved, as proposed. Action on their lease was deferred to the next meeting. Some little discussion was held in relation to leasing the stands in the Market House. A form of lease was adopted, but the committee could not agree as to the best mode of adjusting the rents properly, and the entire matter was given to the sub-committee on markets, with power to act. The other business considered was routine. portant business was that in relation to the

THE FIRE RECORD.

An alarm of fire was sent in from station 68 shortly before 9 o'clock last night, it be ing occasioned by a chimney blaze on house on Millwood avenue, Thirteenth ward At Chicago Monday night the grain and feed establishment of L. Daube & Bros. was destroyed. Twenty horses stabled in the basement perished. Loss estimated at \$20,

THE fire which swept over the Sloux res. ervation in South Dakota Saturday, burne nearly everything in the shape of hay, wheat in stacks and ranges from the Cannonball river to Moreau river. The reservation is a blackened waste. NEAR Berlin, W. Va., Monday night, the

immense lumber yards of Mounts & Co. were totally destroyed. The fire was of incendiary origin, consuming 80,000 feet of fine lumber, in addition to destroying the mill. Loss, about \$25,000, with no insurance. THE village of Comstock, Wis., was nearly destroyed by fire yesterday. The flames caught from the forest fires. Comstock is near the City of Cumberland, which is in great danger of a scorching. If no rain falls soon there will be a still greater loss of property, as it is an impossibility to stop the fire, everything being so dry.

NEAR Madison, Westmoreland county, Monday,a 5-year-old son of George Shrader while playing about the barn, accidentally set fire barn and contents, were consumed, the boy himself making a very narrow escape. The loss is total. Mr. Shrader only a few months ago had his large flouring mill burned by an incendiary.

At Ebensburg Monday the large woolen nill of John Ludwig & Sons caught fire and

had a narrow escape from burning to the ground. John D. Evans, one of the emploves, when found by the firemen, was unous and almost suffocated. The blaze was due to spontaneous combustion, damage, which was principally to the chinery, is about \$500; no insurance. Ocean Steamship Arrivals. Steamer. Where from. New York.

Several homesteaders toward the reservation lost their shantles and barely escaped with their lives. During the day the atmosphere has been heavy with smoke from the surrounding fires. Timber is very dry, and everything seems to burn like shavings. Reports from down the Omaha road state that the damage will be the beaviest ever known unless our renowned method of scientific electri cal and medical treatment for disease, the ELECTROPATHIC INSTITUTE, of 507 PENN AVE-NUZ, will treat all patients applying during the next 30 days for the sum of six dollars per month. This amount to include all medicines and the proper application of all age will be the heaviest ever known unless the flames are checked soon. Who They Are.

Lewis G. Dayis, M. D., is at the head of the staff of physicians and surgeons of the Electropathic Institute of 507 Penn avenue, Pittsburg. Dr. Dayis graduated first at Jefferson Medical College of Philadelphia in 1873. After two years of private practice he took the post-graduate course of Believue Hospital Medical College of New York City; graduating in 1882. In addition to these distinctions, Dr. Davis has special-course diplomas in Physical Diagnosis under Professor Janeway; in Chemistry under Professor Jonemus, in Skin Disenses under Professor Shoemaker, and in Surgical Anatomy under Professor Keen. His staff of able associates have no less bonomble credentials of their training, experience, skill and knowledge needed to practice medicine safely and successfully. Who They Are.

WHAT THEY CAN DO. Mr. Thomas F. Robinson, the well-known bont-builder of this city, who lives on Lafay-ette street, Hazelwood, Twenty-third ward, of this city, gives his experience with the physicians in charge of the Electro-pathic Institute, at 507 Penn avenue:

Thomas F. Robinson, Lajayette street, Haze

"After I began to recover from the grip I was attacked with facial neuralgia, and suffered pain, continuous and almost crazing, in my face and head. I was also afflicted with lumbago. The constant strain upon me finally resulted in complete nervous prostration and insomnia or sleeplessness, that nearly set me crazy.

"I was induced to apply to the physicians of the Electropathic Institute, at No. 507 Penn avenue, this city, and was under treatment less than a week when I began to grow better and I am now completely cured. I cannot speak too highly of the physicians of the Pittsburg Electropathic Institute."

in the prison yard at Canon City at 9 o'clock to-night. The condemned's neck was broken instantly and death was painless. Davis showed no fear and stood up bravely. The doctors found him to be a pure blooded white man, not having a drop of negro blood as reported, being only a foster child of the colored woman he killed.

The history of the crime for which Davis was executed is as follows: On the night of the 7th of January at Pueblo William H. Davis shot and instantly killed Mrs. Carrie Armsby and James Arnold, a lodger in the house. Arnold was a white man about 40 years of age, and Mrs. Armsby, a light mulatto about 50. Arnold had made his home in the family for nearly ten years. On the day previous to the murder Davis, who had been drinking, went to his mother's house and demanded money. Arnold interfered and the demand was refused. Davis left the house vowing vengeance. He secured a shotgun, and about midnight went to the house and demanded admittance. Arnold opened the door. Quick as a flash, Davis raised the gun and discharged it squayely into Arnold's face. Arnold slammed the door shut, bolted it and staggered into the next room, where he fell dead. Finding the door locke Davis placed the muzzle of the gun against the lock and fired. Mrs. Armsby, who had been aroused by the first shot, was sitting up in bed directly in range of the second shot and was instantly killed.
